

## Changing Markets Activist Fund Co.

We invest in companies, and in parallel NGO activist campaigns, that accelerate shifts in market sustainability, and in turn company growth rates. We are recruiting for a paid part-time spring internship position, which may transition into a paid full-time summer internship opportunity.

We are at the forefront of sustainable investing and capital markets. We want passionate students who are committed to regenerating life on earth, take responsibility for their actions, communicate clearly, apply organizational tools such as Microsoft Excel to their own lives, and who are excited to grow with our business. We expect students to develop deep knowledge, transferable skills, and relationship networks through their internship.

We require interns to fulfill diverse assignments such as:

- Creating Microsoft Powerpoint slides on campaign, company, industry, and market information
- Reading journal publications & industry news, and summarizing specific articles with references
- Managing calendar systems and tracking event catalysts
- Organizing Microsoft Excel databases on campaign, company, industry, and market information
- Conducting deep research using primary, secondary, and tertiary sources
- Attending select events and meetings outside of regular business hours

Interns are paid \$15.00 per hour, work at least 10-hours per week, and intern from April 3 till May 22.

Please send resumes with cover letters to Dillon Lanius [drl344@stern.nyu.edu](mailto:drl344@stern.nyu.edu). Also, please include a brief (no more than four sentences) on what makes you grateful.
