Opportunity Summary
Social Venture

Purpose
The goal of the Opportunity Summary is to clearly articulate the focus area, status quo, existing need, opportunity and social impact measure. The document is a one-page summary.

Evaluation Criteria

1. **THE STATUS QUO**
   a) What is the high-level situation in the industry, market, or category you want to challenge?
   b) What are your observations of the status quo? (i.e., describe the assumptions and conventions that influence the way producers and consumers think about the situation you’ve selected.)

2. **THE INSIGHT**
   a) How is the status quo frustrating the current customers? (i.e., the small inconveniences that people have grown complacent about, and/or the big problems screaming for attention.)
   b) What is the key insight that reveals a gap in the marketplace? (i.e., highlight the gap you’ve observed between the way something is now and the way it ought to be.)

3. **THE OPPORTUNITY**
   a) What is the opportunity to fill this gap?
   b) What’s the analogy? (i.e., use a familiar example from a different and non-related industry to help us understand the potential of the opportunity. For example, “we’ll do for school uniforms what Tom’s did for shoes”.

4. **THE IMPACT**
   a) How do you measure the social impact of this venture? (i.e., how you will assess the venture’s effectiveness at achieving its mission.)
