

Spring 2018 Graduate Real Estate Courses

Real Estate Transactions – Jeanne Calderon – Monday, 1:30-4:20pm & Wednesday, 6-9pm

This course examines the legal, tax and financial aspects of each phase of commercial real estate transactions from the acquisition through the disposition of the property, with special emphasis on current projects and transactions. The main topics covered will include: property acquisition; entity selection and structure; tax considerations; construction and permanent financing; mortgage securitization; foreign investment; leasing; workouts and other exit strategies.

Real Estate Primary Markets – Mark Bhasin – Monday, 6-9pm - David Eyzenberg– Thursday, 6-9pm

The Real Estate Primary Markets course provides UG students an accelerated introduction to real estate and a broad and foundational perspective on real estate investments in direct assets within the context of the U.S. markets. It is especially focused toward prospective real estate practitioners in various real estate investment disciplines.

Real Estate Development and Entrepreneurship – Harry Chernoff - Tuesday, 6-9pm & Ben Atkins – Thursday, 1:30-4:20pm

This course introduces students to the broad aspects of real estate development from an entrepreneurial perspective. It takes the perspective of three classes of investors: Entrepreneurial investors, General Partner/Group of Investors, and Passive Outside Investors. This course discusses how business operations impact real estate development. Operating decisions will determine whether or not a deal will be successful and meet overall financial goals. Understanding how real estate deals are created and managed will allow investors to choose deals with the highest probability of success. The real estate topics discussed in the course will include all types of development: residential, hotel, office, retail, land and industrial properties.

Real Estate Investment Strategies - Vineet Bedi – Tuesday, 6-9pm

This course is designed for students with a strong interest in real estate capital markets, both equity and debt. The emphasis is on the public markets, but two weeks are spent discussing real estate private equity. The bulk of the course focuses on commercial real estate, but students will spend some time studying the housing markets. There are three major sections in the course: Equity and mortgage REITS; the CMBS market; and specialty topics including Real Estate Private Equity.

Real Estate Capital Markets – Arpit Gupta – Wednesday, 6-9pm

This course studies debt and equity secondary markets linked to real estate assets. The course takes the perspective of a secondary market investor, such as an investor in mortgage-backed securities or in the common equity of a REIT. The course places considerable emphasis on securitization, the housing finance system, the GSEs, the subprime mortgage crisis and related topics. The course will be relevant both to people with an interest in real estate, and those interested in fixed income markets.

Real Estate Specialization – NYU Stern MBA Program

The Real Estate Specialization provides rigorous training in (i) the economics of real estate development and investment, the financing of such projects, leasing, and appraisal of buildings, (ii) the pricing/valuation and trading of financial instruments with real estate as the underlying, such as Real Estate Investment Trusts (REITs), residential and commercial mortgage-backed securities (MBS), and related derivative and structured finance products such as collateralized debt obligations (CDOs), credit default swaps (CDS), and index products (CDX, ABX, etc.), (iii) the workings of real estate primary and secondary markets, including the various participants in these markets, their roles, and (iv) the legal, taxation, and regulatory environment. Elective courses can be chosen to emphasize the commercial real estate development process or the investment strategies in real estate capital markets. With an appropriate choice of elective courses, this track provides in-depth preparation for careers in real estate development, real estate brokerage, real estate project investment for private equity firms, family offices, sovereign wealth funds, and careers in real estate finance in the fixed income or equity desks of investment banks (research, sales & trading), hedge funds, and sovereign wealth funds.
