Social entrepreneurship is an emerging field that crosses public and private boundaries. Some examples include:

- Nonprofit and government entities harnessing the power of markets for public gain.
- The development and rise of mission-driven, stakeholder-focused businesses.
- Microfinance practices blurring the edges of philanthropy and investment through the use of market forces while delivering financial returns and societal benefits.
- 'Intrepreneurs' building the infrastructure necessary to improve the operations and management systems of public, private and nonprofit entities to achieve socially advantageous results.

**COURSE OFFERINGS FOR SOCIAL ENTREPRENEURSHIP (14 CREDIT MINIMUM)**

Students will take a carefully chosen selection of Wagner and Stern course options that explore the concept of students as “changemakers”, entrepreneurship, and the management practices, public policy implications, and social & economic consequences of the current domestic and international rise in social entrepreneurialism.
